

WARD McALLISTER IS DEAD

**HIS ILLNESS BRIEF, AND AT FIRST
DEEMED TRIFLING.**

He Was Taken Sick a Week Ago by What Was Supposed to Be Grip—Serious Complications Developed, and the End Came Last Evening—His Unique Position in New York's Social Life.

While the Charity Ball was at its height in Carnegie Hall last night a report went around among the guests that Ward McAllister was dead.

The report was first brought in by a clubman, who said he had heard a rumor to that effect. It was soon verified.

Mr. McAllister died at 9:40 o'clock last evening at his home, 10 West Thirty-sixth street, after a week's illness.

Dr. Henry F. Walker, Mr. McAllister's physician, was called in last week, Thursday night. Mr. McAllister then had a slight cold. Next day he kept to his bed.

On Saturday morning his symptoms were bad, and Dr. Walker called in Dr. L. Bolton Bangs. The patient continued to grow worse. He had bright's disease, which was aggravated by the grip.

Yesterday morning there was a consultation in which Dr. T. Galliard Thomas and Dr. George M. Swift were called in. On Monday the lungs had developed. Dr. Swift was left in charge of the patient.

At 10:45 o'clock in the morning Mr. McAllister rallied and there was a change for the better. He continued to improve until 3:45 o'clock in the afternoon, when he suffered another relapse.

He sank slowly from then until he died. The physicians said he suffered very little, and at no time complained of pain.

ASSAULTED THE ENVOY.

**Gen. Fuentes Commits an Outrage Upon the
Chief of the Moroccan Embassy.**

MADRID, Jan. 31.—Sidi Brisha is the chief of the special Moroccan embassy now negotiating with the Government as to the indemnity for the Moroccan attack on Fez. To-day he was to have a special audience with the King and Queen Regent and he left his hotel early in the afternoon, accompanied by several officials of the royal household.

He had taken but a half dozen steps when an elderly man, black as an ebony, stepped from the crowd and, clutching a dagger, rushed at him.

"Tell your master that a Spaniard did this in the name of Gen. Margallo, whom you murdered at Melilla."

A royal official unseathed his sword and was about to impale the old man when his arm was seized. The police then arrested the old man, whom they identified at once as Gen. Fuentes.

They conveyed him to a military prison, where he was questioned as to his motives.

Meantime the Queen Regent had been informed of the affair. She received Sidi Brisha with many expressions of regret, and assured him that Fuentes would be punished most severely.

He told him of his high regard for the Sultan of Morocco and his friendly feeling toward the Moroccan people. After the audience the Ministers called upon Sidi Brisha at his hotel.

All apologized for the assault and promised that Fuentes should be punished most severely.

The incident is all the more embarrassing because the Moors had just complained that boys looted them in the streets of Cadiz.

In the Chamber the War Minister, ex-Premier Canalejas, declared that he would return home at once without waiting to see the Queen.

He was appalled, however, by the numerous apologies and the military Order of Merit which the Queen conferred upon him.

The Government has sent a circular note to the diplomatics, who are expected to meet at once to consider it. Fuentes will be court-martialed. The military code prescribes death or life imprisonment for his offense.

WEL-HAI-WEI CAPTURED.

China's Naval Station Falls Into the Hands of the Japanese.

LONDON, Jan. 31.—The Central News correspondent in Shanghai says that the Japanese have taken Wel-Hai-Wei.

The Daily News says that the commandant at Wel-Hai-Wei is Peter Nielsen, a Norwegian naval officer, 31 years old.

An earlier dispatch to the *Globe* says the Japanese infantry have captured the eastern fort at Wel-Hai-Wei, but the guns of the other fort across the bay are doing excellent execution against the captured fort, and the Chinese are hopeful that they will be able to hold the remaining fort and dislodge the enemy from the eastern works.

Another earlier dispatch from Chifu says that Wel-Hai-Wei was completely surrounded by the Japanese forces, and was being bombarded by land and sea. The Chinese had begun to retreat, and, if not already captured, will soon be taken prisoners.

The Times correspondent in Tientsin says that all the southern forts of Wel-Hai-Wei were captured yesterday, and that the telegraph wires were cut.
